

THANISHKA YOGESH

Full Stack Developer · B.E. Computer Science · Sri Sairam Engineering College, Chennai
[+91 90256 58705](tel:+919025658705) | thanishka.ykb@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#) | [Poetry](#) | [Art](#)

First-year B.E. CSE undergraduate (CGPA 8.50) specialising in Full Stack and Web Development. Built and deployed CongestiQ — an AI-powered traffic prediction system that won 2nd Prize at Code Carnival 2K26. Campus Ambassador for Google, Microsoft, and HCL GUVI. Founder of TS Hub. Published poet in Times of India and 2 anthologies by Writers Pocket Publishing.

EDUCATION

Bachelor of Engineering — Computer Science

Sri Sairam Engineering College, Chennai

Aug 2025 – Expected Aug 2029

- CGPA: 8.50
- Founder: TS Hub — WhatsApp community connecting students to hackathons and tech events
- Member: IEEE CS, RS, SIGHT & TEMS | Designer across IEEE CS & RS teams

School

The Lords' International School (IGCSE) • Alwin Memorial Public School (CBSE)

2010 – 2025

- 10th: 71.5% | 12th: 74.8% | Capstone Project (Team Lead): School Bus Management System
- Poems published in Times of India — Student Edition | Activities: Badminton, Drawing, Poetry

EXPERIENCE

Campus Ambassador / Student Ambassador

Google • Microsoft • HCL GUVI • IEEE EU-REKA • IIM Kozhikode (Backwaters'26) • Zyra Academy

- Represented 6 organisations on campus — driving student outreach, registrations, and awareness
- Facilitated peer mentoring, networking events, and connections to programs and resources
- Promoted hackathons, workshops, and management fests across academic communities

Magic Member – Influencer • IEEE SAIRAM SIGHT

- Selected as influencer for IEEE SIGHT; featured on the official onboarding poster

Event Coordinator & Social Media Manager • IGNITERS

- Coordinating events and managing the social media strategy and content calendar

Designer • Digital Dreamers Den (D3) • UBA Design Team

- Creating visual assets for digital campaigns, community branding, and rural outreach

Full-Stack Web Development Intern • Prodigy InfoTech

- Built full-stack web applications using HTML/CSS, JavaScript, and Node.js
- Integrated front-end and back-end for functional, deployed web solutions

Software Development Intern • Oasis Infobyte

- Python: Automated tasks via scripting; debugged and tested programs for reliability
- Web: Developed and styled web interfaces using modern front-end frameworks
- Design: Created graphics, logos, and social media content using Canva

AI & App Development Intern • CodeAlpha

- Enhanced AI algorithms using ML techniques; contributed to open-source AI projects
- Gained hands-on experience in mobile application development tools and workflows

Student Volunteer • IEEE Sri Sairam Engineering College (CS, RS, SIGHT, RMC'26 & TEMS) • CodeSapiens • YUCI • UBA

- Contributed to events, design, documentation, RMC Outreach Committee 2026 and peer learning across all organisations

PROJECTS

CongestiQ — AI-Powered Urban Traffic Intelligence | 2nd Prize · Code Carnival 2K26, SIMATS Engineering

2026 · 8-Hour Hackathon · Team: CSEDFOLKZZ

- Problem: Traffic systems are reactive — showing where congestion is, not when or why it will occur, costing India \$22B+ annually
- Built a predictive AI system fusing traffic density, weather, road incidents & safety data to forecast congestion 30–60 mins ahead
- Engineered an explainable AI risk engine delivering Low / Medium / High scores with clear reasoning behind each prediction
- Deployed a live MVP with real-time dashboard, signal timing recommendations for authorities & route suggestions for commuters

Stack: Manual Coding · Claude AI · Lovable · Vercel · Antigravity · Custom rule engine | congestiq-ai.vercel.app

SKILLS

Languages: Python · JavaScript · C

Web: HTML · CSS · React · Node.js · Express

Database: MySQL · SQL

Tools: Git · GitHub · Figma · Canva · VS Code

Design: Graphic Design · UI/UX Basics · Digital Editing

CERTIFICATIONS

- Introduction to Modern AI
- Python Concurrent Programming: Multiprocessing in Python
- Getting Started with AWS Systems Manager
- Introduction to Graphic Design & UI/UX Basics
- Tata — GenAI Powered Data Analytics Job Simulation
